About University

Yogi Vemana University established in March 2006 is committed to academic excellence and social enrichment for the well being of the people of Andhra Pradesh in general and of Rayalaseema region in particular. It is named after a great thinker, philosopher, and social reformer Yogi Vemana, the most celebrated Telugu poet and sage of all time. The University located 15Kms away from Kadapa City on the Kadapa - Pulivendula road, with 28 Departments offering Post Graduate Programme and Doctoral Research. The university received 2(f) and 12(B) statuses in 2007 and 2011 respectively. In 2016, University has been awarded 'B' grade by the National Assessment and Accreditation Council (NAAC).

About the Department

The Department of Environmental Science was established in 2009 with the main objective of developing innovative solutions to different environmental problems that exist in this region. The Department offers both M.Sc and Ph.D. programs

About the Workshop

Survival of human being on the planet earth depends on the sustainable use of available natural resources. Further our duty is to protect these resources for sustainable development. Major environmental concerns of present day world are air pollution resulting mainly from industrial development and automobile exhausts, water pollution from industrial and domestic effluents, severe crises of healthy potable water, noise pollution, soil erosion, deforestation, loss of wild life (flora and fauna), dirty and polluted landscapes all resulting from growing population. There are several issues like global warming, depletion of ozone layer, acid rain

e-waste and medical waste disposal and their impact on the quality of environment. It becomes desirable to provide a common platform in taking care of all sorts of living organisms as well environmental protection and to create public awareness and train manpower for mitigating environmental problems.
